

Closer Each Day

A little work – a little each day
Will move obstacles – out of the way.
A little work – and dreams far away come
A little closer each day.

When the task seems hard
We need a place to start.
A little each day
Goes a long way.
We'll look within
To know where we've been,
To know we're **closer each day.**

A little fun – a little each day
Will move obstacles – out of the way.
A little fun – and people far away come
A little closer each day.

When life seems hard
We need a place to start.
A little fun
Can move the world along.
We'll look within
To know where we've been,
To know we're **closer each day.**

A little love – a little each day
Will move obstacles – out of the way.
A little love – and friends far away come
A little closer each day

We're getting things done.
Life is fun.
Mistakes each day
Show us the way.
We're going strong,
We're moving along,
A little closer each day.

A little work – a little each day
Will move obstacles – out of the way.
A little work – and dreams far away come
A little closer – a little closer – a little closer - each day.
