

Nothing to Fight About

I have a dream: The world is good.
Power from earth and sun, water and food.

We are giving as much as we take out
We are living with nothing – nothing to fight about.
We are living with nothing – nothing to fight about.

We've changed priorities: Each one pitches in.
Garbage is recycled. The oceans are clean.

Because we're giving, no one goes without.
We are living with nothing – nothing to fight about.
We are living with nothing – nothing to fight about.

Nothing to fight about - nothing to fight about.
Nothing to fight about – nothing to fight about.
We are living with nothing - nothing to fight about.
We are living with nothing – nothing to fight about.

There's a lot more time to do what we love.
Listen to our neighbors, even God above.

Money lost power, love has more clout.
We are finding nothing – nothing to fight about.
We are finding nothing – nothing to fight about.

We have a future. Our world is sane.
We have a way of life that we can sustain.

This is our planet. It makes us proud.
We are living with nothing – nothing to fight about.
We are living with nothing – nothing to fight about.

Nothing to fight about, nothing to fight about.
Nothing to fight about, nothing to fight about.
We are living with nothing – nothing to fight about.
We are living with nothing – nothing to fight about.
