

Watching Clouds

*[Isis Ra visited her relatives in Florida and returned
with some vivid images of the clouds she saw from the airplane]*

**Watching clouds drift away.
Watching clouds on their way.
Clouds are fleeting – they'll never stay. I'm
Watching clouds drift away.**

There's a rabbit, there's a bear,
People dancing in the air.
No one makes them go or stay. I'm
Watching clouds drift away.

**Watching clouds drift away.
Watching clouds on their way.
Clouds are fleeting – they'll never stay. I'm
Watching clouds drift away.**

Flower bushes, ice cream cones,
Eagles' nests and other homes.
Clouds may rain or shine today. I'm
Watching clouds drift away.

**Dreams unfold for you and me
Through the branches of a tree.
Nothing to want, nothing to say, I'm
Watching clouds drift away.**

I will lift my wings and fly
Like the birds soaring by.
I will join them – for a day, I'm
Watching clouds drift away.

**Watching clouds drift away.
Watching clouds on their way.
Clouds are fleeting – they'll never stay. I'm
Watching clouds drift away.**
